

Sainsbury Wellcome Centre

EMERGING NEUROSCIENTISTS SEMINAR SERIES

The Sainsbury Wellcome Centre for Neural Circuits and Behaviour (SWC) brings together world-leading scientists to investigate how brain circuits generate perception, form memories, and guide behaviour.

The postdocs of the SWC invite aspiring future leaders in neuroscience to present their research to the SWC community in London as part of our Emerging Neuroscientists Seminar Series (ENSS).

We welcome applications from postdoctoral researchers around the world. Candidates should have a minimum of two years postdoctoral experience and should not have secured a faculty or group leader position at the time of application. Previous applicants who were not selected are welcome to apply. Joint talks from co-authored works count as one application and are also eligible. Please apply with a single application for both applicants.

Applications accepted until **5th August 2024**

Presentations will take place on **Oct. 17 2024, Jan. 30, Feb. 27 & Mar. 27 2025.**

Results will be announced by **mid September 2024.**

Travel and accommodation costs will be covered.
